

**PRODUCTION DETAILS**

<b>Colour</b>	Blue
<b>Reference</b>	SCM46568
<b>Description</b>	-
<b>Revision</b>	1
<b>Revision Date</b>	Nov. 30, 2020

**SPECIFICATION**

<b>Physical Form</b>	Cylindrical cut pellet		
<b>Packaging</b>	Supplied in 15kg polyethylene valve sacks		
<b>Transport</b>	No special transport or labelling requirements		
<b>Specified Let Down</b>	2.0		
<b>Base Carrier</b>	PE	<b>Grade</b>	Unspecified
<b>Process Additives</b>	Lubricants		
<b>Cadmium Pigments</b>	Not present		
<b>Lead Based Pigments</b>	Not present		
<b>Diarylide Pigments</b>	Not present		
<b>Thermal Stability</b>	260°C		
<b>Light Fastness</b>	6-8 Blue Wool Scale		

**FURTHER INFORMATION**

The information on properties quoted above is given as a guidance.

Buyers and users are advised of these facts so they can make their own assessment of our products under their own conditions when necessary.

The properties may be affected by other additives and/or polymers with which the masterbatch is used, the conditions of processing, or the service conditions of the finished product.

Final approval for food contact and toy use needs to be assessed on the final item.
